Introduction

The Ambitious theme is a Beamer theme with minimal visual noise inspired by the HSRM Beamer Theme by Benjamin Weiss. Enable the theme by loading

```
\documentclass{beamer}  
\usetheme{ambitious}
```

Note, that you have to have Mozilla's *Fira Sans* font and XeTeX installed to enjoy this wonderful typography.

Sections group slides of the same topic

```
\section{Elements}
```

for which Ambitious provides a nice progress indicator ...

Supports 4 different title formats:

- ALL SMALL CAPS
- ALL CAPS

They can either be set at once for every title type or individually.
